Lifelong flight

Our hometown Vladimir has always been rich in famous people. Some of them are known in our country, others are known all over the world.

Since May 18, 2005 Vladimir school № 2 has been named after the Hero of the Soviet Union Ivan Efimovich Zhukov .

I. E. Zhukov was born on December 31st, 1934 in Vladimir. His family was rather poor. There were 4 children in the family. His elder brother Mikhail died in 1943 during the Great Patriotic War. Ivan Zhukov studied at school № 2, he finished it in 1953.

When Ivan was a school-boy he was keen on the sky and he began to study at the Vladimir air club. Those years a lot of young men dreamed of becoming pilots and they attended air clubs. In the club Ivan studied parachute jumping and piloting. In 1953 I.E. Zhukov piloted his first airplane, it was Уак - 18.

After finishing school Zhukov entered the pilots' military school in Orenburg, then in Syzran. At the age of 22 he became a professional military pilot. He served in the Air Forces of our country and went on his education in the Air Forces Academy named after Y. A.Gagarin in Monino, not far from Moscow. Zhukov finished Academy in 1967.

In 1977 I.E. Zhukov was honoured with the Order of the Red Star for testing an airplane MiG- 23.

In 1982 I. E. Zhukov with other pilots tested a new supersonic airplane MiG-25. Something was wrong with this kind of airplanes. Three of them had already crashed by that time. At the height of 17,000 metres pilots heard a strange sound. They realized that the situation was crucial. Zhukov decided to land the airplane by all means.

It is unbelievable but Zhukov managed to land the airplane. The reason of the defect was an oversight of engineers who had constructed the plane. For this great deed Zhukov was honoured with the medal "The Golden Star" of the Hero of the Soviet Union and the Order of Lenin.

In 1988 Zhukov I.E. finished his military career. At present Ivan Efimovich has more spare time for his family (he has got a wife, a son and a daughter and three

grandchildren). He is fond of sports and his favourite hobby is taking pictures of nature.

I.E. Zhukov is really a great example to follow. Pupils and teachers of this school have an opportunity to communicate with Ivan Efimovich during his visits. One of the prides of school № 2 is the museum of I.E. Zhukov.
